* Note: The dates provided in the table above are included in the title and may only reflect the date of the last edit, rather than a fully updated dataset. If this is an issue for your work, try investigating the specific data.

The UoA Auckland Council Geodatahub can be accessed directly through a University computer. To access the Geodatahub:

ie paste above link in the address bar instead of mapping a drive.

If you are not using a computer on campus, you can access it by connecting to FlexIT or Forticlient. For off-campus access through Forticlient:

1. Go to [Installing and using the FortiClient VPN](#) and follow the instructions provided by the University of Auckland.

UoA Geodatahub information is generally publicly available, apart from more detailed park and street furniture information.

Only thing is convenience and whole of Auckland clipped data.
