

TEAM Architects Scholarships 2024

Information Sheet

TEAM Architects New Zealand is a consortium of nine practices through-out New Zealand from Auckland to Wanaka who practice both independently and collectively as TEAM Architects Ltd. With a strong design emphasis TEAM have specialist skills and a hands-on approach to project management. As a significant employer of architecture graduates, with over 100 staff, we are keen to strengthen the links between the Schools of Architecture and practice.

This being the 19th year of the TEAM Architects Scholarships they are the only national award competed for by 1st year Masters of Architecture (Professional) students. It is awarded to assist with the completion of M Arch (Prof) studies in the following year.

The Awards

The Scholarships are offered to 1st year Masters of Architecture students studying at, and who have completed a Bachelor of Architectural Studies (BAS) at one of:

- Victoria University of Wellington,
- University of Auckland,
- UNITEC Institute of Technology,
- Auckland University of Technology.

TEAM Architects Scholarship Supreme Award

The monetary value of the Team Architects Scholarship Supreme Award is **\$3000** and is presented with a certificate.

TEAM Architects Scholarship Distinction Awards

Three Scholarship Distinction Awards of **\$1000** may be awarded to students from each of the other three Schools of Architecture with a certificate.

Successful candidates are to use the Scholarships for study in the following calendar year for completion of their degree on providing evidence of enrolment.

Application & Submission

To apply you must have completed both a BAS and be in the 1st year of a recognised Masters of Architecture (Professional) programme, in a New Zealand School of Architecture.

You are required to submit the following:

1. the main final project in the design course from the first semester of 1st year of Masters (It is not necessary to especially prepare a portfolio);
2. a brief explanation of the programme brief/s and your approach – no more than half an A4 page;
3. application form;
4. official academic record for your time at University.

T E A M [®]

The work submitted shall be an electronic copy collated into a tidy format suitable for placement in an electronic repository.

If the final design project work is a joint project, then it shall be submitted as a joint submission by the two or more participants, along with full documentation of items 3 & 4 for each participant.

The application form and work are to be submitted by **31st July 2023** to m.davis@auckland.ac.nz

Selection Process

The award criteria will be based on an assessment of the work reflecting:

1. that demonstrates sustainable architecture is a fundamental aspect of architecture today;
2. that student's ability to successfully complete their final year with excellence and progress into the practice of architecture.

Each School of Architecture shall shortlist **two** nominees from their applicants. Each School will nominate their judges, who shall apply the above criteria.

The eight nominees will then be given an opportunity to present to the TEAM Architects Zoom Design Session. Following that, the work will be considered by the nine TEAM Architects offices to establish a shortlist of recipients. Individuals on the shortlist may be given an interview with a panel of two or three TEAM Architects directors in their city of study.

In the situation that a joint project is submitted and that body of work is selected, the scholarship will be shared.

The Awards will be announced after selection and certificates presented at the respective School of Architecture's end of year exhibition and award ceremonies.

About TEAM Architects

TEAM facilitates the exchange of ideas and expertise between its member practices with the aim of delivering consistently higher quality architectural services to a wider range of clients.

Large-scale projects and those of national significance are undertaken by TEAM with the offices collaborating in a manner which best utilises the considerable experience, expertise and resources of the team.

TEAM practices are regular award winners in NZIA and other programmes searching for excellence in the industry. The consortium has a strong focus on sustainable architecture on quality project management of project delivery. TEAM projects, across a diverse range of project sizes and programme types, have gained both local and national recognition. This reflects the high standard of skills across the group and the particular expertise of key personnel in the practices.
